**Attachments:** Ag Management Briefing\_ac081814.docx

Hi Alan--

See my edits attached. Ag is a very tricky one with lots of nuances to address and I think you're doing a great job leading this issue. I was getting a bit confused with some of the options and pro/cons, through, since I think you were mixing up some terms (conditional approval findings were issued in 1998; in 2004, we granted OR an interim approval for Ag, etc.) It was getting a little messy to revise in track changes so I just rewrote. Let me know what you think and if I'm missing anything.

Allison

Allison,

See the attached. I tried to capture what we discussed last week. I also provided background information for the managers. I don't plan to go over the background information. I do have a little work to do on the tail end of the background information.

Let me know what you think.

Alan
